Why the United States Federal Reserve Bank

And the Business Associations of the United States?

<http://www.usa-positive-expectations.com/support-files/thefed.pdf>

Jobs, jobs and more local jobs are created by the gift of NewOldMoney from the private sector.

USA VALUES LLC is a start-up advertising, promotion, and public relations company building the "Early Reading Skills Delivered -- Ringing Advantages" brand. It sells advertising and provides "free" communication services (supported by local advertising dollars) for the purpose of influencing and changing attitudes. The requirement is that 100% (each and every) child must have early reading skills, be counting, and understand positive direction entering kindergarten. As a first step, we are creating a company that delivers a public service message to consumers from the local business private sector who must advertise.

I am 100% certain you can help and that this unique private sector approach will be interesting to you. I cannot imagine you want this national or local email opened by your citizens without being given **this heads up to help find the NewOldMoney needed to get started.** Email us to start. We are not going to tell you to make a change or what to change to. We are going to offer to help you cause the change your community wants to make in connection with the school district and other stakeholders.
