

Suburban Pedagogy and Teaching

The end in mind is to eliminate the K-12 public education gap by adding early education because of the new brain development science. This will be a major development to get the education, economics, emotions and ethics right after 50-60 years of trying. Top demonstrated early performances are creating the gap and improvements in demonstrated performance continue and will continue into the future. **Top early education activities and performances must be the end in mind target for the most at risk because early education is the solution to the gap.** There are other activities but the gap does not close unless 100% of the children start kindergarten with something like these activities. The most at risk must be really ready to read and count. Mother and child must understand they personally create a positive expectation for the whole community.

Exactly what is first things first literacy and math as defined by Montessori?

Recapped from David Gettman's -- Basic Montessori Learning Activities for Under-Fives published in 1987. Of course other pedagogy has also proven itself. In these discussions there are no reasons to stray from what has proven to work in a paid for economy, but it is understood other designed learning activities also work to create the early reading and math skills. .

5. Mathematics Activities	159
Introduction	159
Group 1: Introduction to Numbers	162
Number Rods	162
Sandpaper Numbers	163
Number Tablets (with the Number Rods)	164
Spindles	166
Numbers and Counters	167
Memory Play	168
Group 2: Introduction to the Decimal System	169
Limited Bead Material	169
Number Cards	171
Function of the Decimal System	172
Formation of Complex Numbers	174
Unlimited Bead Material	175
Group 3: Introduction to Teens and Tens	177
Introduction to Teens	177
Introduction to Tens	179
Fractions	181

4. Language Activities	131
Introduction	131
Early Preparation	134
Classified Pictures	134
I Spy	136
Speech	137
